

AMTRON® 4You 300

NEW

**THE WALLBOX FOR EASY SOLAR
CHARGING AND ACCESS CONTROL**

 **100% climate
neutral**

If your customers are looking for easy solar charging or need a wallbox with access control, AMTRON® 4You 300 is the right choice. The high-quality wallbox allows for easy charging and offers numerous individual benefits for installers and environmentally conscious e-car owners.

The wallbox is suitable for solar charging without an energy management system: It enables charging with solar energy regardless of the manufacturer of the PV equipment, the inverter or the HEMS. Important for those who would like to purchase a solar system at a later date: The charging station, combined with an additional meter, is compatible with all systems.

All AMTRON® 4You charging stations are climate-neutral and "Made in Germany". The charging station features replaceable covers that are available in eleven colors.

All highlights at a glance

- ✓ Easy charging with RFID access control
- ✓ PV charging without an energy management system, compatible with all PV equipment when integrating an additional meter
- ✓ Change solar charging modes without an app, directly on the device
- ✓ The 11 kW variant also supports 1-phase and 3-phase solar charging (surplus charging) for dynamic charging capacities from 1.4 to 11 kW
- ✓ LED status display
- ✓ Replaceable covers in 11 colors
- ✓ Available with 11 or 22 kW charging power
- ✓ DC fault current detection
- ✓ Open Modbus RTU interface
